

Igor Polajžer

Software Engineer

- **Mobile and Web** application development
- **AI/ML** exploration and integration
- Strong attention to **detail**
- Lifelong **learning** and skill **growth**

Tech Stack:

- **Backend:** Java, JS/TS, Spring Boot, SQL, Firebase, MongoDB
- **Frontend:** React, HTML, CSS, Tailwind, Bootstrap
- **Mobile apps:** Flutter, Kotlin
- **AI/ML:** Python, PyTorch, LLM APIs
- **DevOps & Tools:** AWS, Docker, Git, Jira, Postman

Work Experience

Backend Developer

March 2025 – Present | **Tridens d.o.o**

- Develop, maintain, and test scalable backend systems and APIs.
- Design, implement, and test software functionalities.
- Collaborate with team members to deliver high-quality software.

Programmer

August 2024 – June 2025 | **Setronica d.o.o**

- Ensured AI/ML model quality by evaluating LLM outputs and preparing training datasets
- Collaborated with international teams to refine AI solutions and optimize performance

Software developer intern

August 2023 – October 2023 | **Skylabs d.o.o**

- Developed Python-compatible wrappers for C++ libraries and built RESTful APIs

Education History

Electrical and Computer School Ptuj

Mechatronics Technician, June 2022

- Sparked passion for solving real-world problems with technology
- Built foundational engineering and technical skills

University of Maribor – FER

Bachelor of Computer Science, August 2025

- Strong foundation in computer science
- Web and mobile application development
- Explored AI/ML technologies

University of Maribor – FER

Master of Computer Science, Present [Exp. 2027]

- Expanding expertise in computer science with focus on AI/ML
- Exploring diverse areas of software development

Qualifications & Certificates

The Complete Flutter Development Bootcamp with Dart
Fundamentals of Deep Learning Certificate – NVIDIA
